

# Windsor Pump Company, Ltd.

Windsor Office: (519) 737-6060

Oakville Office: (905) 302-3933

## A DISTRIBUTOR OF THE FOLLOWING QUALITY PRODUCTS

Air operated diaphragm pumps.

Centrifugal end suction, self priming, and submersible pumps

Centrifugal, self priming, turbine and submersible pumps.

High pressure reciprocating plunger / piston pumps.

Special alloy, corrosion resistant, centrifugal and self priming pumps.

Barnes Submersible, Crane, Weinman centrifugal, Prosser submersible

Stainless steel high pressure vertical multi stage centrifugal in-line pumps. clear liquids, flows to 330 GPM and heads to 850 TDH. 304 or 316 SS

Horizontal end suction, vertical true cantilever & line shaft pumps. Vortex & semi-open impeller pumps. High solids & dense slurry handling capabilities

Multistage Centrifugal Pumps and other Specialty Process Pumps

Rotary gear, and Self Priming Centrifugal trash pumps

Solids and slurry handling ball check valves. 1.25" to 28". Construction in cast iron, bronze, 316 SS.

Extensive line of Butterfly, ball, and gate valves, with controlling actuators

Chemical drum transfer pumps.

Chemical metering pumps & water treatment equipment.

Complete supply of Goulds, Durco, and most other process pump parts

Centrifugal pumps, Wastewater pumps, Multi Stage pumps, Submersible Turbine and double suction centrifugal pumps

Specialty centrifugal high pressure, mag drive and vacuum pumps

Rotary gear, progressive cavity, and self priming solids handling centrifugal pumps.

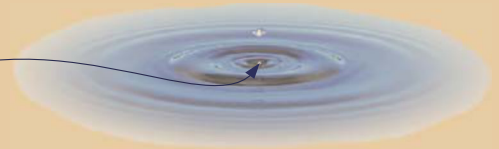

Self Priming, positive displacement, and engine driven pumps.

Submersible, hard chrome, agitator, slurry, sludge pumps

# Solving Problems

SYSTEMS ● ASSEMBLY ● INSTALLATION ● REPAIR ● PARTS

**Systems :** We have the ability to engineer and build complete pump-based systems for virtually any application. Allow us to be your turnkey supplier.

**Assembly :** Allow us to fabricate your system to your specifications to minimize your work load.

**Installation :** When labor is limited at your facility, let us relieve the burden and perform the installation to your specification.

**Repair Service :** Our skilled craftsmen offer complete repair / rebuild services on any pumps as well as specialized maintenance programs for your operating equipment at your site.

**Parts :** One of our specialties, our service parts organization is well known for its expert support. If you need a part - for any pump - we can find it for you and at the right price!

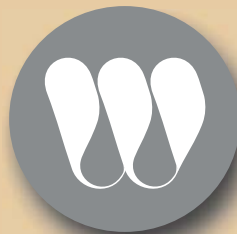

**Personnel :** A skilled and friendly staff of highly qualified pump professionals stand ready to serve you.
